CompanyGraph — Two lines through one company

A company’s units and teams, the jobs its people are employed in and the two lines that run through them, written as pages a check holds.

RESTS ON `concept Pack`

Robert Blust · Software Engineer & Architect

Ask the model

01

The method you know

The pack writes the units, jobs and reporting lines of organization design down as pages.

W3C	The Organization Ontology
SCHEMA.ORG	department
SAP	Organizational Management in SAP HCM
HR-XML 3.1	ReportsToPositionType
GABLER	Einliniensystem
GABLER	Mehrliniensystem
GABLER	Stelle

RESTS ON `concept Pack`

Ask the model

02

A group and its kind

A unit, or a team drawn from units. Its kind tells the two apart and says whether it stands in the disciplinary line.

RESTS ON `group-kind Department · example`

`group-kind Team · example`

example/model/group-kinds/department.md

```
---
id: 01a1152c-379b-73e1-b7e3-e6cc8ff183be
source: Local
in-line: yes
---
# Department
> A standing unit of the company that hires, appraises and sets objectives for the people
  in it.
…
```

Ask the model

03

A job is not a seat

A job is what a person is employed as. A seat is a responsibility in a process. Our team also names an agent and our talks' voices, which hold seats and no job.

RESTS ON `group Maintainers` `job Maintainer` `job Co-Maintainer` `seat Owner` `seat Partner`

model/groups/maintainers.md

```
…
# Maintainers
> Keeps CompanyGraph, from deciding what it is for through every gate to the merge, the tag
  and the release.

## People
| Profile | Job | Place |
| --- | --- | --- |
| Robert Blust | Maintainer | Lead |
| Mischa Ramseyer | Co-Maintainer | Member |
| AI Agent | | Member |
| English Voice | | Member |
| German Voice | | Member |
```

Ask the model

04

The disciplinary line

It runs through the people a unit names and up through `part-of`. Each answers to the unit's Lead, and no person carries a field naming their superior.

RESTS ON `group Management · example` `group Engineering · example`

example/model/groups/management.md

```
…
# Management
> The top of Beacon Systems' line, where the company's direction is set and the departments
  answer.

## People
| Profile | Job | Place |
| --- | --- | --- |
| Ines Marchetti | Managing Director | Lead |
| Jonas Whitcombe | Executive Assistant | Staff |
```

Ask the model

05

The professional line

A group's `guides` names the jobs whose discipline it sets, wherever the people who do them sit.

RESTS ON `group Engineering · example`

`job Backend Engineer · example`

example/model/groups/engineering.md

```
---
id: 01a1152c-3830-7c3f-b3ad-3761dc40528c
source: Local
kind: Department
rank: 20
part-of: Management
guides:
  - Backend Engineer
  - Product Engineer
---
# Engineering
…
```

Ask the model

06

A team across units

A team draws its people from units, and they keep their units. A temporary group has a `start` and an `end`, not a status.

RESTS ON `group Billing Run Team · example`

example/model/groups/billing-run-team.md

```
---
id: 01a1152c-3863-79ba-8430-755ed2dec49c
source: Local

rank: 90
start: 2026-09
---
# Billing Run Team
…
## People
| Profile | Job | Place |
| --- | --- | --- |
| Mira Halvorsen | Backend Engineer | Lead |
| AI Agent | | Member |
```

Ask the model

07

Staff and order

A staff unit stands in the line beside the head it serves; the flag is on its kind. A `rank` orders a group among all the company's groups, not among one parent's children.

RESTS ON `group-kind Staff Unit · example` `group Legal · example`

example/model/groups/legal.md

```
---
id: 01a11fcc-a579-7c38-88e9-0784850f3e77
source: Local
kind: Staff Unit
rank: 15
part-of: Management
---
# Legal
> Advises Beacon's managing director on the law the billing platform is held to, from
  contracts to invoicing rules.
…
```

Ask the model

08

Openings

A position a group is looking to fill is a row of Openings while it is open, not an object that outlives its holders.

RESTS ON `group Engineering · example` `group Legal · example`

example/model/groups/engineering.md

```
…
## Openings
| Job | Place | Count | Since |
| --- | --- | --- | --- |
| Backend Engineer | Member | 2 | 2026-11-01 |
```

Ask the model

09

Where it departs

Where the pack does not do what its sources do, its README says so, and why.

RESTS ON `concept Pack`

The two lines	named by the right each carries, disciplinary and professional; “functional line” is used for neither
One `reportsTo`	two lines, as SAP, HR-XML and German practice keep them apart
A superior on the person	none: the lines run through the people a unit names and the units they sit in
Organizational unit	`group`, because a team drawn across units is a group and not a unit
A position object	a row: of People while someone holds it, of Openings while it is open
The staff flag on each unit	on the group's kind, and a staff person's Place is Staff

Ask the model

10

Left for later

What the pack does not have yet is named in its README, not hidden.

LATER	edges from a group to KPIs and processes
LATER	a transitive form of part-of
LATER	a check that a person in a job holds the seats the job names

RESTS ON `concept Pack`

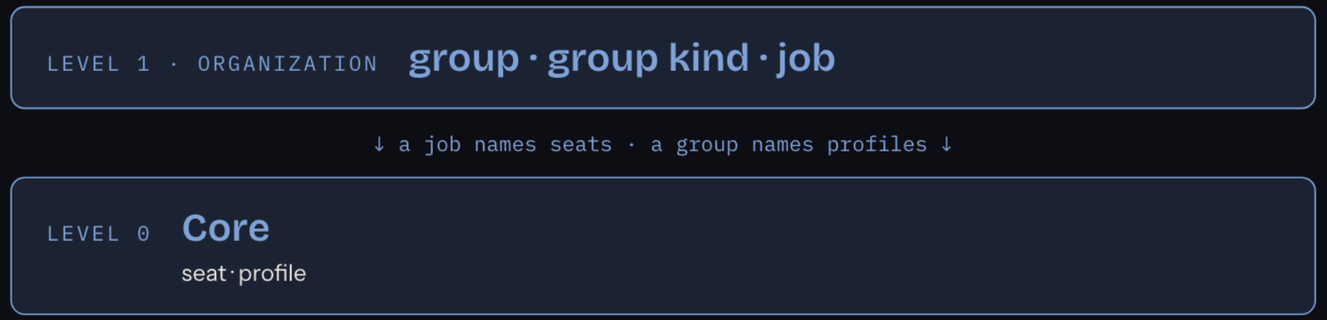

Ask the model

11

Both lines, on the page

The chart you draw and the one people work in, both written as pages a check holds. Where the pack departs from its sources, its README says why.
